

ASHRAFUJ JAMAN TANBIN

Full Stack Developer

Address: Chittagong, Bangladesh

Phone: 01326104846

Email: ashrafuj.jaman.tanbin1@gmail.com

[Github](#) | [Linkedin](#) | [Portfolio](#)

SKILLS:

Expertise: HTML5, CSS3, SCSS, React JS, Next JS, Bootstrap, Tailwind, Angular Material

Comfortable: JavaScript, TypeScript, Node JS, MongoDB, Mongoose, Prisma, Postgresql, JWT, Tanstack Query, Axios, Material UI, Redux.

Familiar: Angular Js, Zustand, Antd.

Tools: VS Code, GitHub, GitLab, Figma, Google Firebase, Netlify,vercel, Cypress.

WORK EXPERIENCE

Associate Software Engineer, [Nasheed Station](#)

June 2023 - March 2024

- Played a key role in the development and testing of Nasheed Station, a major company project.
- Developed and maintained web applications using Angular
- Conducted Cypress testing to ensure the reliability and functionality of web applications.

PROJECTS

Tour Compass

[Live Website](#) | [Client Code](#) | [Server Code](#)

- Tour Compass is a tour cost management system.
- Accurately track all tour-related expenses in one system.
- Harness powerful analytics and reporting to make informed decisions and enhance tour profitability.

Used Technologies:

- **Front-End:** HTML, CSS, React Js, Typescript, Antd, Redux toolkit.
- **Back-End:** Typescript, Express Js, Node Js, Mongoose, MongoDB, JWT.

Play Time Market

[Live Website](#) | [Client Code](#) | [Server Code](#)

- Developed a secure Firebase authentication system for login and private routes, prioritizing user privacy.
- Enabled efficient CRUD operations with MongoDB backend for seamless data management & optimal UX.
- Added captivating animations to enhance user experience and visual engagement.

Used Technologies:

- **Front-End:** HTML, Tailwind css, React, Axios, React Query.
- **Back-End:** Javascript, Express Js, Node Js, MongoDB, Vercel.

Creative Canvas

[Live Website](#) | [Client Code](#) | [Server Code](#)

- Tailored experiences for users, instructors, and admin with separate dashboards and customized permissions.
- Secure access control for authenticated users, restricting unauthorized access to sensitive information.
- Enhanced security with secure user registration, login, and account management using Firebase.

Used Technologies:

- **Front-End:** HTML, CSS, React Js, Javascript, Antd, Redux toolkit.
- **Back-End:** Typescript, Express Js, Node Js, Mongoose, MongoDB, JWT.

ACHIEVEMENTS

Black Belt (programming hero)

[Black Belt](#)

Jan, 2023 - June, 2023

COURSES

Programming Hero

Web Penetration Testing

[Certificate](#)

Oct, 2020 - July, 2021

Arena Web Security
